

DOORS | Trellis Gate

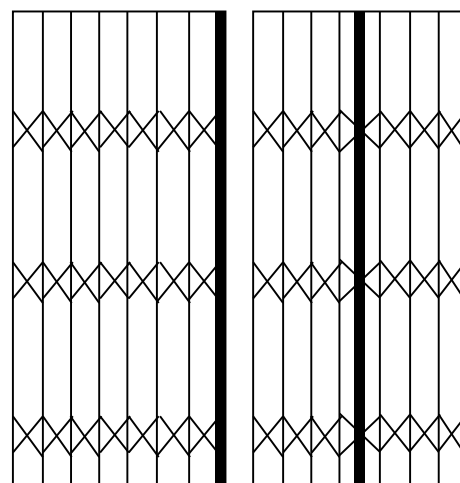

The Trellis Security Gate design offers:

- 12 x 12mm Double Uprighted Security Barrier.
- 25 x 5mm flights – Sizes from 1110mm high and up.
- The strongest and most solid flight configuration currently available in the South African market.
- Its features, coupled with extra slot support stainless steel rivets, an Aluminium extruded top and bottom track, coupled with anti-twist functions ensures a top quality product second to none.
- Its slam lock and dead lock qualities, together with double sealing bearings on all uprights allows for the weight of the product to be equally distributed along the entire door.
- The Martial Eagle security gate is available in both single and double fixtures, with fixture sizes from 450mm upwards.
